### **3. Methodology for quoting rate**

Contract value : The contract vale has been estimated for 3500MT for a period of two years at the rate fixed by GOI,i.e., the storage charges payable by FCI to CWC . Accordingly ECV is calculated as follows:

Capacity required - 3500MT , CWC rate - **Rs.4.96 per bag per month**, period - two years

Contract value for two years =  $3500 \times 20 \times 4.96 \times 24 = \text{Rs. } 83,32,800/-$ .

#### **Illustration (to be treated only as example)**
