No. Vig.21(81)/2015/DR

Dated: 17.05.2017

ADVISORY

Vigilance Division, Hqrs. while examining action taken reports submitted by ZO/RO on the inspection/investigation reports of various squads has come across instances where not only the action taken report is inordinately delayed resulting into dilution of issues but the follow up action on irregularities of serious nature pointed out in the report leaves much to desire.

In one such instance, a squad headed by a GM level officer from Hqrs. reported shortages and huge arrear in records in one of the depots. The concerned Regional Office instead of taking corrective action submitted a shallow verification/action taken report to dilute the matter and the concerned officers/officials have been let off with a warning only though initially it was informed to Vigilance Division Hqrs. that Disciplinary action was being initiated against the delinquents. The sorry state of affairs further gets accentuated by the fact that the Regional level committee headed by DGM(R) did not physically verify the 8 stacks in the shed where Hqrs. squad pointed out the shortages on the pretext that the same were under fumigation.

The above instance clearly indicates towards the attempt to mitigate the observations, thereby destroying the sanctity of the entire exercise with an adverse implication on deterrent to such serious irregularities.

Therefore, the Administrative Authorities are hereby requested to bestow their personal attention to the observations of squads and corrective action in a time bound manner be taken in right earnest apart from taking action against the delinquents. Further, wherever there is either delay in taking action or an attempt to hush up the matter, the officers/officials responsible will also be liable for action.
